Gross Profit

55%*

Monthly Potential Earning of QSR

Assuming that a minimum of 300 orders are placed daily, including walk-ins and online orders, with a minimum ticket size of Rs.150 per order, resulting in a total of 9000 orders in a month, generating a total monthly revenue of (a) Rs.13,50,000

Considering the food cost to be 45%, the monthly food cost expense amounts to (b) Rs.6,07,500

Thus, the monthly gross profit will be
(a) Rs.13,50,000 - (b) Rs.6,07,500 = (c) Rs.7,42,500

Additional Operating Expenses Amount to	(d) Rs.2,00,000
Salaries & Wages	Rs.50,000
Leases (Fixed)/ Management/Office Expense	Rs.25,000
Energy & Utilities/Wood	Rs.50,000
Operating Cost/Packaging etc	Rs.25,000
Marketing Cost/ Finance Cost/ Maintenance	Rs.50,000

Royalty, calculated at 6% of the total monthly revenue
Rs.1,350,000 * 6% = (e) Rs.81,000

Marketing expenses, set at 1% of the billing, amount to (f) Rs.13,500

Therefore, the net profit from the QSR operation alone is
(c) Rs.7,42,500 - (d) Rs.2,00,000 - (e) Rs.81,000 - (f) Rs.13,500 = (i) Rs.4,48,000/-

Keep in mind that there may be other sources of income as well

Other Income to QSR by our other Products

Heads	Monthly	Details
10% Royalty from Trolley on Actual sales	Rs. 30,000	On Expected Sale 3 Lac pm
10% Royalty from Internet Kitchen on Actual Sales	Rs. 60,000	On Expected Sale 6 Lac pm
10% Royalty from Tiffin Box on Actual sales	Rs. 15,000	On Expected Sale 1.5 Lac pm
10% Royalty from Gravy Mix on Actual sales	Rs. 4,500	On Expected Sale 0.45 Lac pm
Total	(ii) Rs. 1,09,500	

Expected Net Monthly Profit (i) Rs.4,48,000 + Other Income (ii) Rs.1,09,500 = Rs. 5,57,500/- pm
